ABOUT ME

I'm a Full Stack Web Development graduate from Bryan University with a strong passion for building modern, responsive web applications. I actively apply my skills in React, C#, and web technologies to solve real-world problems and continuously grow as a developer. As a dual citizen (Iraqi American), I'm legally authorized to work in both countries. My five years of experience in the oil field shaped my work ethic, discipline, and adaptability — all of which now drive my transition into tech. I'm fully committed to pursuing a long-term career in software development and excited for what's ahead.

- **MYSQL / EXCEL VBA**
- **NAVIS N4**
- **MICROSOFT OFFICE SUITE: EXCEL, WORD, OUTLOOK, VISIO**

Languages

• ARABIC (NATIVE LANGUAGE)
• ENGLISH (FLUENT AND PROFESSIONALLY SPEAKING)

PROGRAMMING PROJECTS

LANDSCAPING BUSINESS WEBSITE

- **Skills Utilized**
  - **JAVASCRIPT**
  - **HTML**
  - **CSS**
  - **CSS FLEX-BOX**
  - **CSS GRID**
  - **Responsive Web Design**

WEATHER API APP

- **Skills Utilized**
  - **JAVASCRIPT**
  - **HTML**
  - **CSS**
  - **CSS FLEX-BOX**
  - **CSS GRID**
  - **Responsive Web Design**
  - **JAVASCRIPT**
  - **React.js**

FINANCE PROJECT

- **Skills Utilized**
  - **HTML**
  - **CSS**
  - **CSS FLEX-BOX**
  - **CSS GRID**
  - **Responsive Web Design**

PROFESSIONAL EXPERIENCE

- **DATA ADMINISTRATOR | MCKESSON | DETROIT, MICHIGAN, U.S. | DECEMBER 2020 – JUNE 2021**
- · Managed the daily logging and tracking of incoming and outgoing pharmaceutical materials with a focus on accuracy and timeliness
  · Designed and maintained a basic inventory tracking system using **Microsoft Excel**, including formulas and structured data entry for team use
  · Provided professional, daily communication with clients and partners across the pharmaceutical industry, maintaining service quality under pressure
  · Handled high-volume multitasking during peak hours with strong **typing skills** and attention to detail
  · Troubleshot and resolved internal IT-related technical issues, supporting staff across multiple departments
  · Assisted in the coordination of material shipments and semi-truck loading processes
  · Supported document handling, email correspondence, and administrative tasks using **Microsoft Office Suite** (Excel, Word, Outlook)
  · Practiced data hygiene and file management standards to maintain operational efficiency and compliance

- **TOS JUNIOR DEVELOPER | BGT ICTSI IRAQ | BASRA, IRAQ | JULY 2021 – PRESENT**
- · Designing and developing internal web applications using **C#**, **.NET**, **React**, and **TypeScript** to support and streamline terminal operations
  · Building full-stack solutions to modernize legacy workflows across the port environment
  · Working closely with operations to develop tools for container tracking, gate activity, and EDI automation using **Navis N4**
  · Writing optimized **SQL** queries and generating data reports to support billing, planning, and dispatch
  · Customizing and troubleshooting the **Navis N4 TOS platform**, including EDI configurations, XSLT documents, and yard planning logic
  · Collaborating with cross-functional teams to deliver scalable, responsive, and maintainable software for daily terminal operations
